Women In Tech

Promoting equality and innovation by championing diversity and empowering women in technology across all levels. 45% Women Leaders.

HAPPY CLIENTS

May 23, 2021

Natural Language Processing

The team at BugendaiTech were professional and communicated well with me throughout our project. The regular update sessions were solid. The team always ensured that I understood what they were working on and asked me for feedback. They were also receptive to feedback.

Do consider reaching out to the team at BugendaiTech if you have any projects in natural language processing.

Really came through when I needed it

May 28th, 2021

I've been using resources from BugendaiTech and have been very happy. The code is clean and they're great at communication. They were able to staff on a very short notice and I've been very pleased with the work.

★★★★★ 5.00 Apr 12, 2021 - Apr 20, 2021

"Shreya and her team is excellent to work with. I enjoyed working on this project and I'd be happy to work on any future projects together of Machine Learning, NLP, and more."

Jun 26, 2021

Great experience working with Team...

Great experience working with Team BugendaiTech. You will find the coolest Co-Founder ever, Roushan Kumar. Right from the co-founder to the team members everyone supports each other in gaining new opportunities. If you want to excel in career and looking for a cool work culture then join the BugendaiTech Team.

#BugendaiNobel "PLEDGE 1%"

As Pledge 1% members, we prioritize giving back to the community while committing to NetZero sustainability. Our remote-first culture supports inclusivity, work-life balance, and eco-conscious operations.
